

Tree removal—the pink circles indicate trees that will be cut down. The pink areas are groups of trees and bushes that will be removed (Over 100 in the pitch area).

Just a few of the trees that will be lost

Other trees will be lost in the Lake area.

The cutting down of these trees will produce a massive change in the landscape. Any replanting will be done to provide privacy for Spurs and to hide the damage they have done to the character and beauty of the landscape

And this beautiful chestnut

Objections

1. Major change to the landscape and to the character of this Green Belt park.
2. Ecological damage to habitat, and biodiversity.
